

Health and Safety Policy

SeaDragon will ensure its most valuable asset, **our people** are returned home safely to their families at the end of each work period, SeaDragon will provide a positive environment and culture in which a commitment to Health & Safety is part of everyday business with an integrated, embedded and effective system. We will achieve this by:

- Directors and Management ensuring that they provide a safe work environment for employees and other people in our workplaces.
- Reducing our injury rate, through striving to prevent accidents before they happen, being proactive not reactive – and having the proper incentives and systems in place to promote Health & Safety.
- Employees being responsible for maintaining their own safety and the safety of others within the workplace.
- Complying with legislation, regulations, applicable codes of practices and standard operating procedures.
- Systematically identifying hazards and controlling risk in the workplace. Where significant hazards have been identified taking all reasonable steps to eliminate or minimise the risk so as to prevent injury or damage.
- All workplace injuries, incidents and near misses being reported and recorded according to statutory requirements.
- Supporting the early and safe return to work for injured employees
- Encouraging and supporting active involvement with employees in managing health and safety in the workplace.
- Creating a positive safety culture where people are encouraged to provide safety information
- Being a leader in the industry by using best practice and continuous improvement.
