

SeaDragon Limited

Diversity Policy

Adopted on: 30 May 2018

Introduction

This policy (“**Policy**”) was approved by the board of directors (“**Board**”) of SeaDragon Limited (“**SeaDragon**”) on 30 May 2018.

This Policy supports the commitment of SeaDragon to create an inclusive environment where all of our employees are encouraged to reach their full potential and individual differences are valued and respected.

Benefits of diversity

Diversity refers to the variety of differences between people in an organisation. Diversity encompasses gender, race, ethnicity, disability, age, sexual orientation, gender identity, marital or family status, religious or cultural background and more.

SeaDragon’s commitment to diversity at all levels forms part of its merit-based organisational culture dedicated to the recruitment and retention of the best available talent at all levels, up to and including the Board.

The Board believes that embracing diversity in its workforce contributes to the achievement of its corporate objectives (including optimising financial performance in a competitive labour market) and enhances its reputation. It assists SeaDragon to recruit and retain the right people from a diverse pool of talented candidates, which in turn should assist SeaDragon to:

- make more informed and innovative decisions, drawing on the wide range of ideas, experiences, approaches and perspectives that employees from diverse backgrounds, with differing skill sets, bring to their roles; and
- better represent the diversity of its stakeholders and markets.

Commitment to diversity

The Board is committed to achieving the goals of:

- providing access to equal opportunities at all levels of work based on merit; and
- fostering a corporate culture that embraces and values diversity.

SeaDragon is an equal opportunity employer and welcomes people from a diverse set of backgrounds. In order to have a properly-functioning diverse workplace, discrimination, harassment, vilification and victimisation will not be tolerated within SeaDragon.

Recruitment of senior management and employees

SeaDragon is committed to providing equal employment opportunity for all of its employees and senior management, based on merit, ability, performance and potential, in a way that contributes to the achievement of its corporate objectives, including diversity.

The Board will monitor and promote the diversity of staff and the associated corporate culture, including by requiring that recruitment and selection processes at all levels are appropriately structured so that a diverse range of candidates are considered and to avoid conscious or unconscious biases that might discriminate against certain candidates.

Objectives for achieving gender diversity

SeaDragon will:

- aim to establish appropriate and measurable objectives for achieving gender diversity;
- require relevant members of the senior management team to measure and report on the achievement of such objectives;
- consider and, if relevant, implement policies and programmes that address impediments to gender diversity in the workplace (including parental leave and flexible working arrangements that assist employees to fulfil their domestic responsibilities, and other programmes that, over time, help to prepare junior staff for senior management and Board positions), and review these policies to see that they are available to, and utilised by, both men and women at all levels; and
- annually review, assess and report against any measurable objectives established for achieving gender diversity and SeaDragon’s progress in achieving them.

Roles and responsibilities

Every employee of SeaDragon is responsible for supporting and maintaining SeaDragon's corporate culture, including its commitment to diversity in the workplace.
